

Financial Institutions

The Preeminent China-based International Law Firm

Founded in 1993 and one of the most prestigious law firms in the region, Fangda Partners has over 700 lawyers. We serve a wide variety of major clients – including large MNCs, global financial institutions, leading Chinese enterprises and fast-growing Hi-tech companies – on an extensive range of commercial matters through our network offices in Beijing, Guangzhou, Hong Kong, Shanghai and Shenzhen, offering PRC law and Hong Kong law.

We are the firm of choice for clients' most challenging transactions and legal issues in many practice areas. Since we were founded, we have advised on some of the largest and most complex corporate and finance transactions in China, the region and globally. We have also assisted our clients with many renowned and complex cases and arbitrations, compliance and government investigations in the region.

Our service to clients is premised on the dual foundations of strong local law capabilities and a global business outlook. Our lawyers are qualified in many jurisdictions, including the People's Republic of China, Hong Kong SAR, England and Wales, the United States, Singapore and Australia.

Our understanding of the laws and processes in major jurisdictions around the world enables us to advise our clients effectively on the largest and most complicated cross-border matters in China and elsewhere. Our strengths have been widely recognized by our clients and peers. Chambers has commented on our cross-border capabilities in the following terms – “outstanding quality of its lawyers”, “high level of service that is comparable to international firms”, and “strong global outlook”.

Financial Institutions Practice

Fangda Partners' Financial Institutions Group regularly advises domestic and international clients on the most complex and cutting-edge legal issues in the financial service sector in China. We are renowned for our participation in most of the market-leading deals, for our deep understanding of the financial services sector in China, and for our ability to help clients navigate through the complex financial services regulatory environments.

Fully fledged services

We offer fully fledged services relating to financial institutions and the Chinese financial market, ranging from regulatory work, transactions involving financial business to contentious matters. We also advise Chinese financial institutions and investment companies on their outbound activities in the financial services sector. Our clients include all key participants in the financial services sector, including investment banks, asset managers, commercial banks, financial sponsors, alternative fund managers, insurers and fintech companies. In addition to licensing issues, governance, products, marketing, compliance and general regulatory issues, we have also advised clients on new issues with the emergence of fintech, including blockchain, e-signature, big data, data privacy, cybersecurity and other related issues.

Most experienced team

Our team comprises leading lawyers who have extensive experience in advising financial institutions on regulatory and M&A matters. Our team has developed longstanding relationships with many of the leading international and domestic financial institutions and know their businesses well. We offer a unique combination of international execution capabilities and in-depth understanding of the domestic market and regulations to ensure that matters are handled efficiently, effectively and in clients' best interests.

Deep understanding of regulators and business-oriented approach

We have developed close working relationships with many of the regulatory bodies in China through working with them on matters over many years. This practical experience enables us to provide clients not only with tailored strategic advice but also well-informed tactical advice. We bring a practical and business-oriented approach to offer the full range of commercial legal services, balancing client's business needs with regulatory compliance.

- Morgan Stanley on its investment into Zhong An Insurance.
- QTrade on its business cooperation with Tencent regarding the establishment of a financial market information-sharing platform.
- A global financial service provider on the proposed offer of a number of trading platforms on a cross-border basis.
- A leading investment bank on its A+ round of investment into a fintech company.

Regulatory

Our regulatory experience includes advising on the following matters as well as assisting with drafting and negotiations:

- Establishing new participants, assisting clients in obtaining regulatory authorizations and completing all legal and compliance steps.
- The structuring of PRC financial market acquisitions and joint ventures, as well as licensing, approval or filing procedures.
- Strategic advice and tactical analysis for businesses providing financial services in China.
- Supporting ongoing activities and operations of financial institutions, including banks, securities and fund managers, insurance companies and representative offices of foreign banks in China, including assisting clients to tackle legal issues relating to trading, clearing and settlement of domestic securities, futures, commodities and currencies products.
- Operation of financial services such as factoring, auto finance, financial leasing, and supply chain finance.
- Fintech-related advice, including blockchain, e-signature, data privacy, big data, financing, licensing, security and operational issues.
- Market misconduct, including misrepresentation, short selling, insider trading, and market manipulation, among other issues.
- Foreign exchange issues.
- Cross-border investment activities, for example through the QFII, QDII schemes, CDR, Stock and Bond Connect, including reviewing investment documentation and advice on regulatory issues.
- Market access to, and risks associated with, the exchange clearing system and clearing houses in China.
- Regulatory investigations into securities investment, asset management, banking, foreign exchange, and anti-money laundering.
- Complex cross-jurisdictional regulatory investigations and enforcement issues.
- In-depth reviews of the corporate governance of financial institutions, including all aspects of regulatory governance, systems and controls requirements, assisting with putting in place reporting structures and decision-making processes, and advising on board and committee regulation.
- Issues relating to system deployment, data storage and security, cross-border data transfer, privacy protection, including mandatory requirements and best practice.
